13<sup>th</sup> February 2026

Dear Families of Y6,

We are excited to announce that we have been invited to attend an amazing high energy Science Show delivered by the Royal Institution, called 'Fuel the Future.'

Surbiton High School has invited all of Y6 to attend, along with Surbiton pupils and other excited young scientists from around the Royal Borough of Kingston.

As part of their growing programme of Community Classrooms, the Royal Institution are returning to Surbiton High School with their 'Fuel the Future' workshop. Previous years have proven extremely popular, with trained presenters bringing huge excitement and scientific wonder to all pupils who have seen them in action. We are certain they will yet again bring enthusiasm and an inspiration of science to all.

The workshop will be on **Friday 6<sup>th</sup> March** at the Surbiton Assembly Rooms, KT6 4RT. We will be leaving school at 10.45am to walk to the Assembly Rooms, and will return to school to have lunch at approximately 1pm.

All children will need a packed lunch, as they will return to school too late for a hot school lunch. If you book lunch on ParentPay in the normal way, a school packed lunch will be provided. Otherwise, please provide your child with a packed lunch from home in a disposable bag, and do not forget to cancel any hot meal already ordered. No fizzy drinks or sweets please. Children should have a named water bottle, and may bring a small fruit snack with them.

As this is a local trip, our general local permission slip, signed on entry to the school, covers permission. We are just writing to inform you. There is no cost for this trip.

We are very grateful for parent/carer help supporting our trips, and would appreciate volunteers to accompany us. If you have a current DBS and would like to join us, please complete the Google form [here](#). We will confirm helpers as soon as we can.

Many thanks for your ongoing support.

Jack Morris

Y6 Class Teacher and Science Lead
